

19th Heartfelt & Touching E-Tegami Exhibition

China

Thailand

Japan

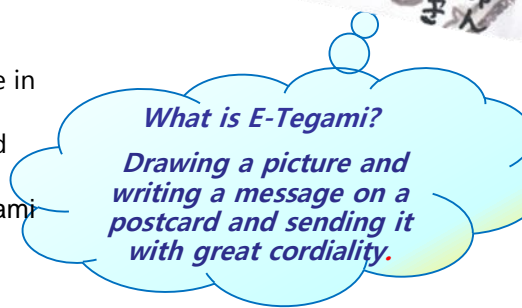

Through *Etegami* (picture and message on a postcard), we wish to help developing children's writing skills, observation skills and communication skills. We would like children from overseas to have an opportunity to come in contact with *Etegami* and encourage international exchanges.

We hope that every single *Etegami* makes connections between people and spreads smiles all over the world.

With these thoughts in our mind we introduce "Heartfelt & Touching E-Tegami Exhibition".

We are looking forward to receiving lots of entries.

What is E-Tegami?

Drawing a picture and writing a message on a postcard and sending it with great cordiality.
